Dave Raines
President
Osbee Industries, Inc.
99 Calvert St #100
Harrison, NY 10528

Dear Mr. Raines,

I am writing this letter in regard to the ad placed on your website for the positions you have available. I would like to schedule an opportunity to talk about these positions when you are available.

As you can see by my resume, most of my experience has been within a theatre atmosphere where I have been in charge of running small crews during the installation of rental and custom automation and lighting gear. Along with that I have a working knowledge of ladder logic working mostly from an Allen Bradley platform. I am currently a member of IATSE Local 311, and have an understanding of union contracts and experience working with other union employees. While working at PRG I also have become quite proficient in AutoCAD, both in 2d and 3d, along with developing a working knowledge of AutoCAD Inventor.

I am an eager person willing to learn anything and everything. I am accustom to long hours, short deadlines, and getting my hands dirty. I believe your company and what you do is new, innovative, and exciting and is something I would love to be a part off.

I would like to thank you in advance for your time and consideration of my application and hope that we are able to meet soon.

Regards,

Nicholas Freely
